

ATTENDANCE + SALARY FOR SHOPS

Aao, **haazri** lagao. Salary apne aap.

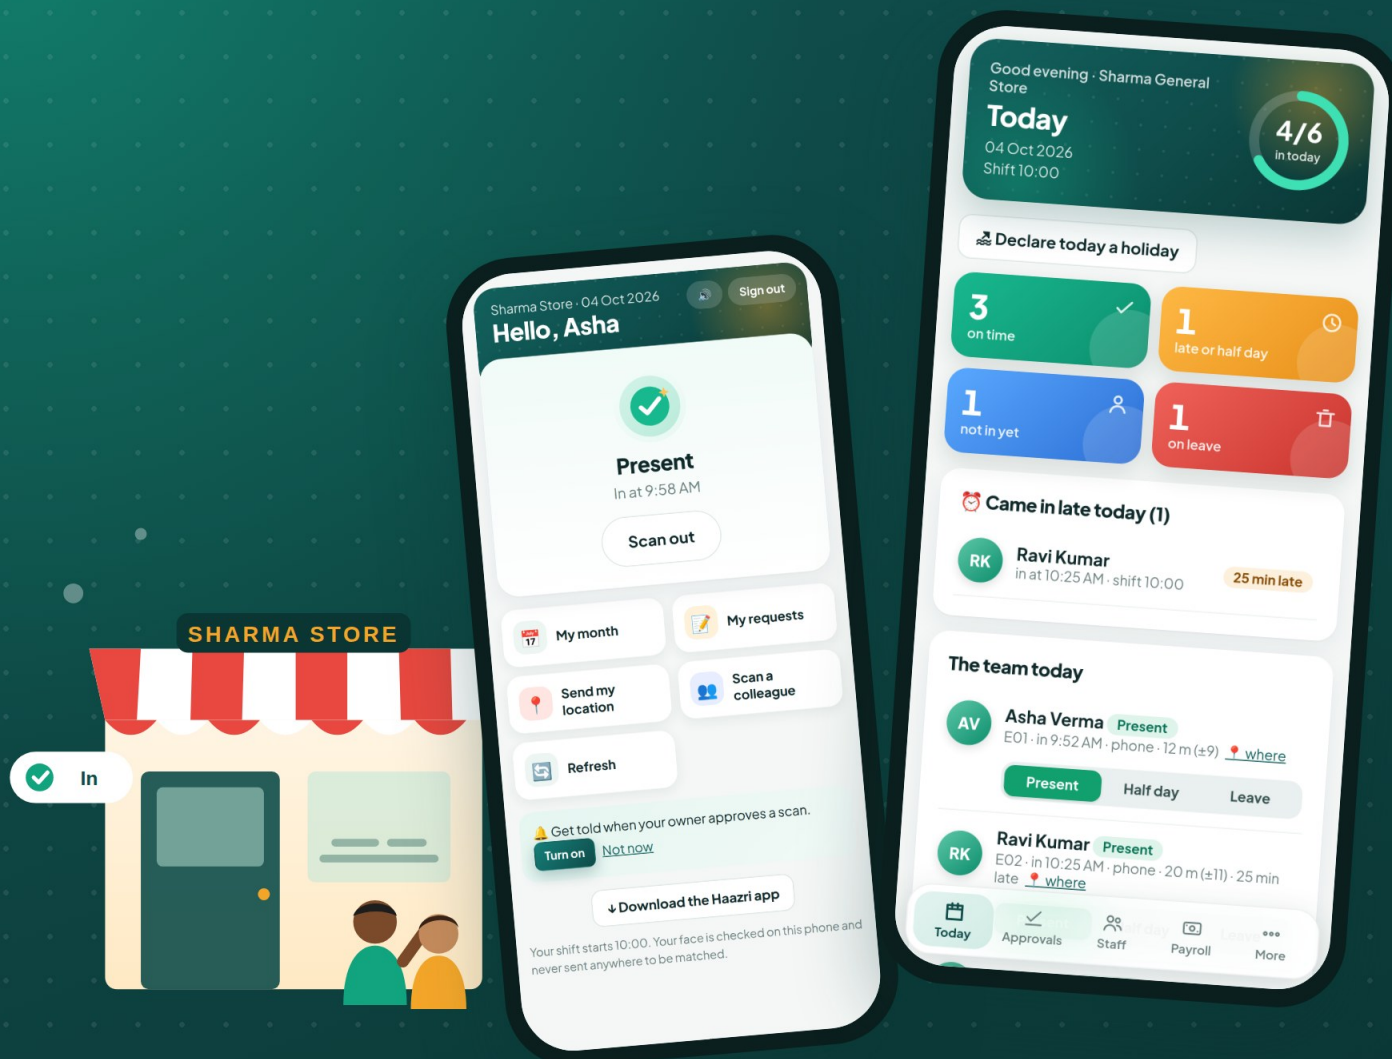

Staff scan their face at the shop on their own phone. You see who came, who was late, and what everyone is owed — live, on yours. No machine, no register, no AMC.

😊 Face scan in a second

📍 Only counts at the shop

₹ Salary worked out

📄 Salary slips on WhatsApp

The register, the guesswork, the month-end fight — gone.

Today, in most shops

- ✗ A register anyone can fill for a friend
- ✗ “I came at 10” — nobody can prove otherwise
- ✗ Salary worked out on a calculator, every month
- ✗ Advances written on paper, forgotten at pay day
- ✗ Face machines: ₹15,000–20,000 + yearly AMC

With Haazri

- ✓ Only **their own face**, checked on the phone
- ✓ Only **inside the shop** — GPS checks the location
- ✓ Time from the **server**, not the phone’s clock
- ✓ Salary, leave, advances, overtime — **worked out**
- ✓ **₹7,999 once**. Uses the phones you already have

1 sec

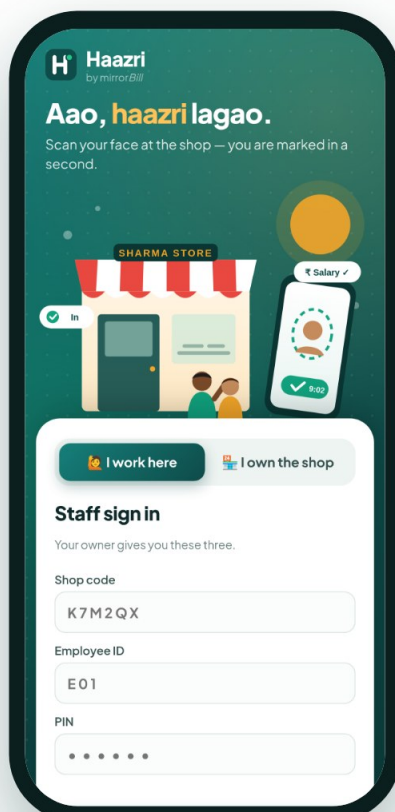

to scan in at the door

0

machines to buy or repair

₹0

a month, ever. No AMC.

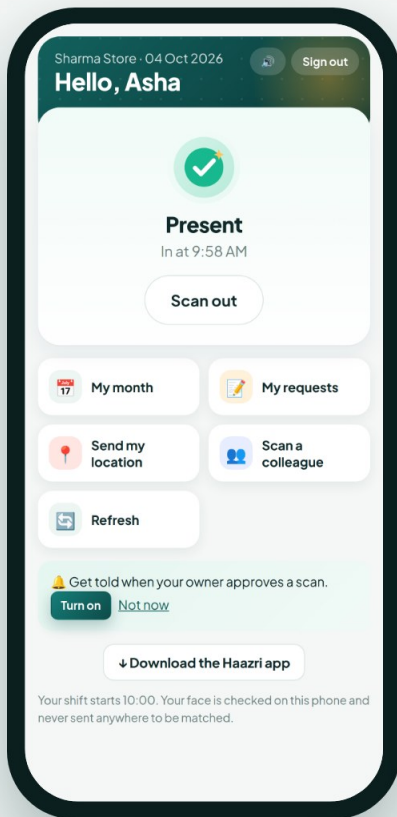

Two doors, one app

Staff sign in with a shop code, their ID and a 6-digit PIN — no email needed.

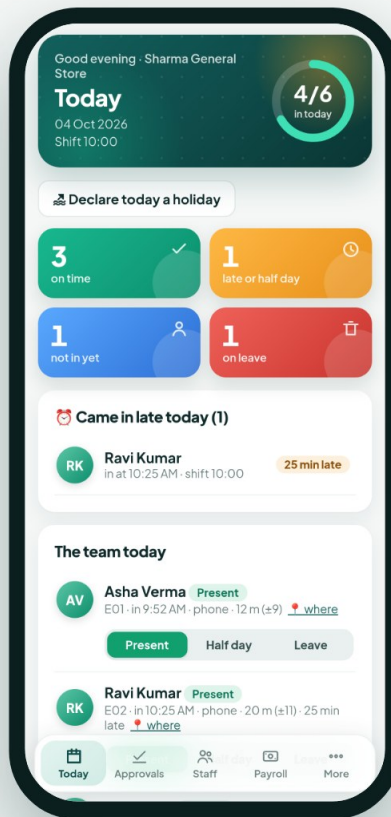

Owners sign in with email. Works on any Android phone, iPhone, tablet or laptop — and as an Android app.

Three steps. Every day.

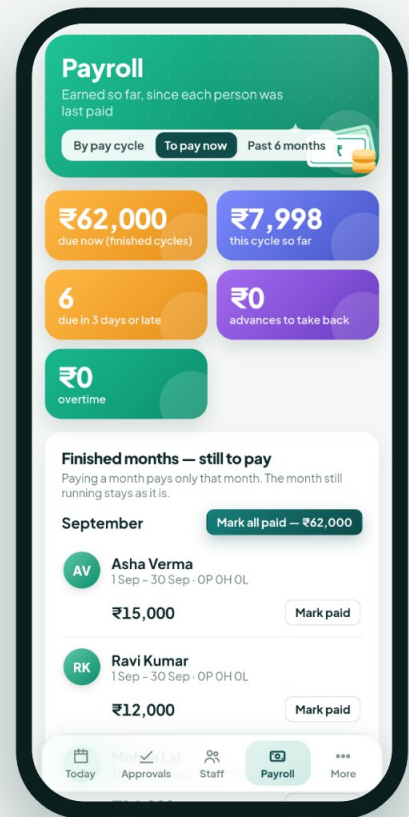

1 Staff scan in

At the shop, they tap **Scan in** and look at the phone. Face matched, location checked, marked — with confetti 🎉

2 You see it live

Who is in, who is late and by how much, who hasn't come — and a notification for every scan.

3 Salary is ready

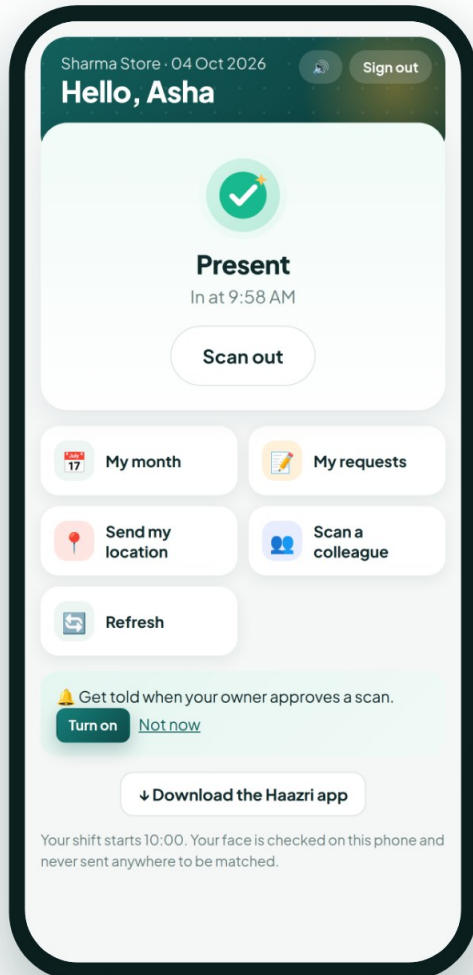

On pay day: leave, half days, advances and overtime already counted. Pay by UPI, send the slip.

Private by design

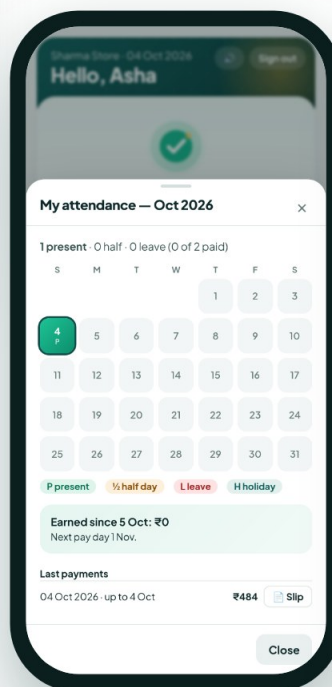

The face is matched on the phone itself — never sent anywhere to be matched. Scan photos are deleted after 24 hours; only the times stay. Location is taken only at a scan, never in the background.

Their phone. Their face. Their shop only.

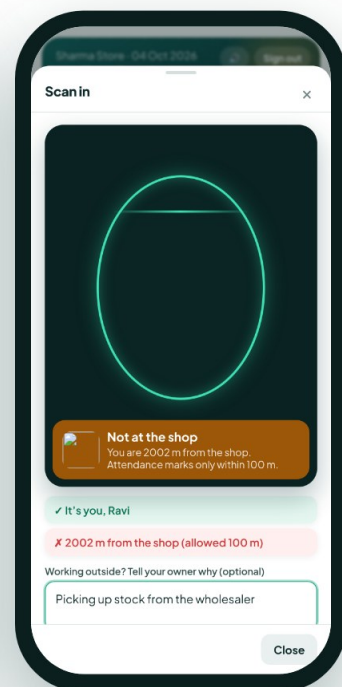

Marked in — the day's card

- ✓ **Face scan in a second** — with a quiet live check that flags a photo held up to the camera
- ✓ **Location check** — counts only inside the shop's circle (you choose 25 m to 1 km)
- ✓ **Working outside?** Bank, delivery, market — they send the scan to you; you approve or turn it down
- ✓ **Scan out** when leaving — leaving early never cuts pay; you decide
- ✓ **Scan a colleague** whose phone is dead — on their own phone, inside the shop only
- ✓ **My month** — their calendar, what they've earned, and their salary slips
- ✓ **Send my location** to you with one tap, when you ask

My month

Outside? Send for approval

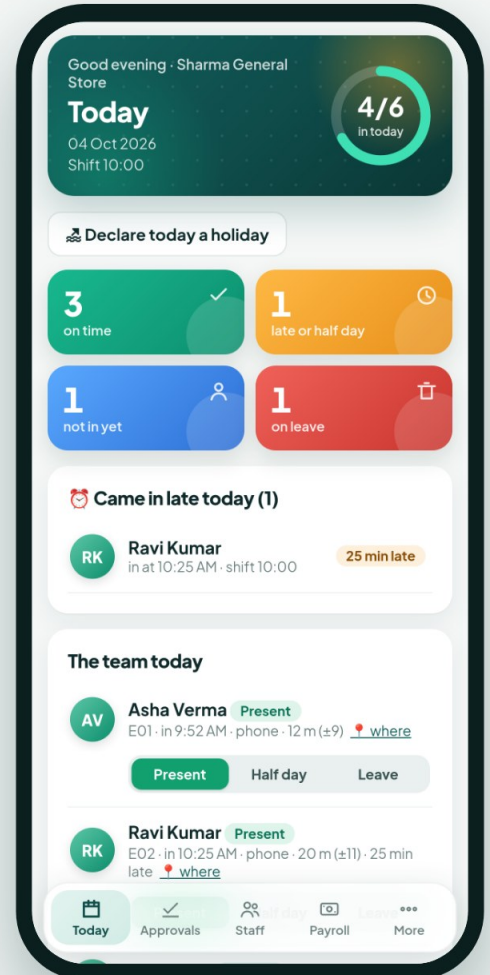

FOR YOU, THE OWNER

Your whole shop, in your pocket.

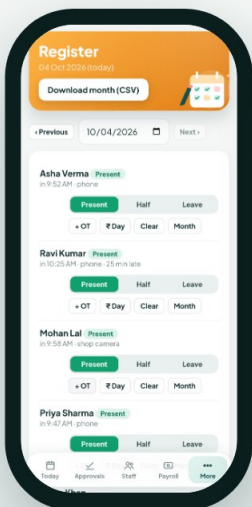

Notifications that matter

-  **Sharma Store: 5 of 6 in, 1 late** 11:00
Late: Ravi (25 min) · Not in yet: Mohan
-  **Asha scanned in** 9:58
In at 9:58 am · shift 10:00
-  **Ravi wants to be marked in** 10:40
850 m from the shop · “At the bank”. Tap to approve.
-  **Mohan scanned out · 2.3 km from the shop** 7:12
32.21000, 75.48000 — tap for the map
-  **Mohan didn't come today — marked leave** 8:30
No scan all day. Change it in the Register if needed.
-  **Pay day today — 3 people** 8:30
Asha ₹15,000, Ravi ₹12,480... Tap to pay.

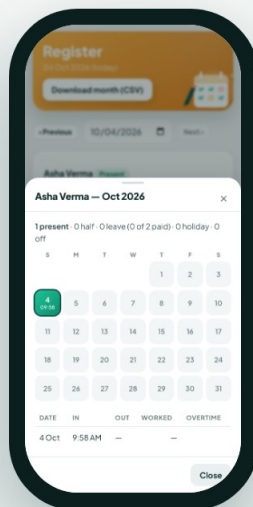

- ✓ **Approvals** with the photo, the reason and the exact spot on Google Maps
- ✓ **Register:** any day, any person — every change logged
- ✓ **Holidays:** paid, unpaid, or from leave — your choice

Today — live

Register

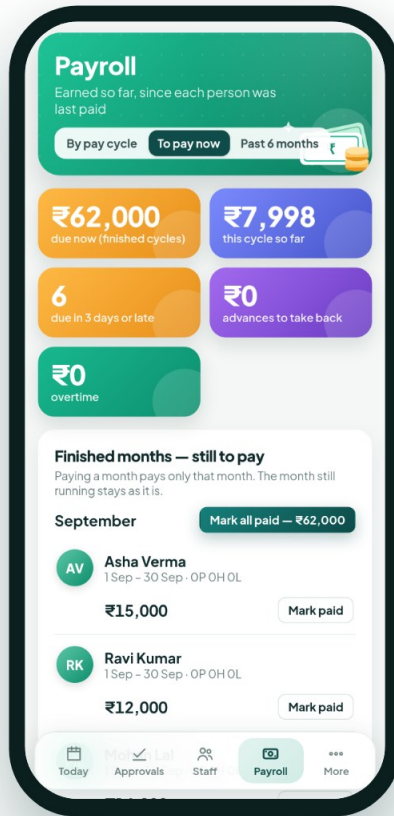

Anyone's month

Your rules, not ours

Shift times per person, grace minutes, late = half day or not, paid leaves a month, what a missed day counts as, weekly offs, holidays — set once in Settings, used everywhere.

Salary day in two taps.

Monthly salary or daily wages, paid monthly, weekly or daily — on your pay day (the 1st, the 15th, any day). Haazri counts every day and keeps every rupee straight.

By pay cycle

Paid leave & half days

Your leave rules, per person. Late can count as a half day — if you want it to.

Advances

One tap from the staff list. Comes off the next salary by itself.

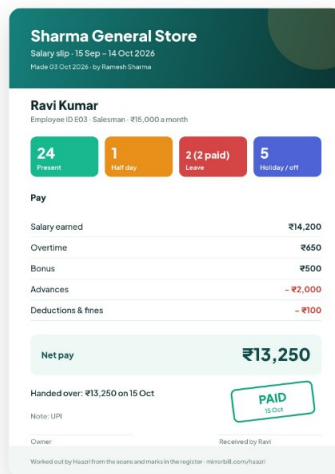

Overtime

Add it yourself, or automatic after closing time — by the minute.

Pay by UPI

Opens GPay / PhonePe with the amount filled in. Then “Mark paid”.

Salary slip PDF on WhatsApp

Every payment makes a proper slip — days, pay, advances, PAID stamp. Staff can download theirs too.

Pay day, start to finish

1 · Open Payroll

Everyone due is listed, the amount already worked out.

2 · Pay

Cash, or UPI straight from the screen. Pay less or more — the rest carries over.

3 · Mark paid

Slip sent on WhatsApp. The person gets a notification too.

Built for real Indian shops.

Shop camera

Staff without a smartphone? One old phone or tablet at the counter scans everybody.

Many branches

One login for all your shops. Switch between them; hear from all of them.

Shifts per person

Different start times, a shop closing time, and a grace period you set.

Holidays & offs

Weekly off, festivals, rain days — paid or not, daily-wagers included.

Every scan, told

In, out, late, early, outside — and a check on days you marked by hand.

Live location

Ask anybody where they are; they send it with one tap.

PINs you can see

Forgot PIN? See it or reset it from Staff in two taps.

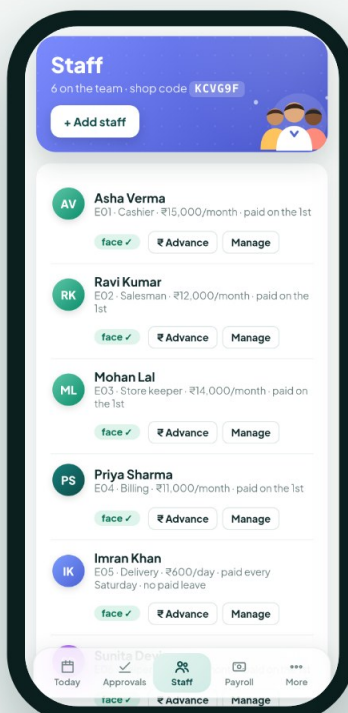

Excel export

Download any month's register or payroll as a spreadsheet.

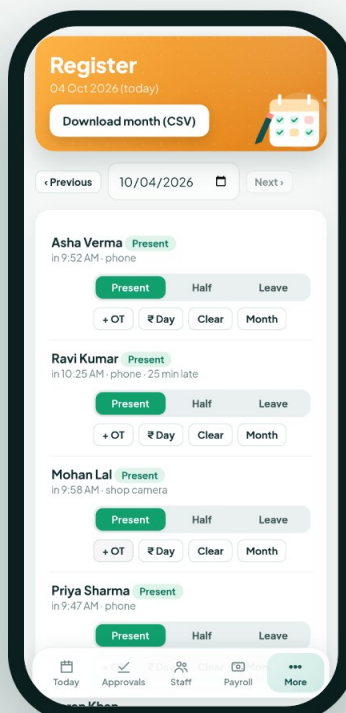

Feels like an iPhone app

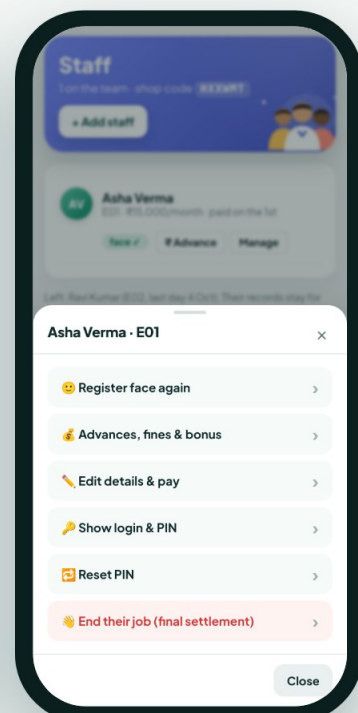

Smooth, springy and fast — opens in a blink, works on cheap phones, updates itself.

Running in 10 minutes

1

Open the shop

Shop name and your email — that's it.

2

Set the location

Stand in the shop and tap once.

3

Add your staff

Name, salary, three face pictures.

4

Send them the login

One tap sends code + PIN on WhatsApp.
